

MC1215 | Public Service Proof - Judiciary

Call up your local courthouse and record the conversation as evidence as you ask the following questions:

1. Who am I speaking with?
2. What is your position here?
3. Is this a public or private courthouse?
4. Being that this is a public courthouse does that not make you a public servant?
5. A public servant must swear an oath of office that they must be able to recite upon request to hold the authority granted them by the people? To the best of your knowledge is that correct?
6. Can you explain to me how you define the universal principles of morality?
7. Do you agree that a public servant must pledge an oath that binds him or her to make decisions on behalf of the people, that fall within the confines of universal morality?
8. Have you taken the oath to stand under the universal principles of morality?
9. To verify that you are indeed operating under the authority of people I require you to recite your oath of public service.
10. I require you explain how (name of court in your state) listed as a corporation registered for GST with an ABN (quote ABN number) on the Australian Business Registry, and listed on Dun & Bradstreet, a credit reporting agency for corporations, is acting morally to serve the people?
11. Can you explain how a judge or magistrate appointed by government, can serve as the peoples fail safe that keeps government in check, given the judiciary is appointed by, and answerable to parliament, and not the people?

Send your recording to the 'Social Proof' channel on Telegram:
